

Sauce Insights

IMPROVE TESTING EFFICIENCY WITH DATA DRIVEN INSIGHTS

Sauce Insights provides real-time visibility into your testing efforts. With customizable reports to help you quickly identify bottlenecks and high impact issues, along with actionable insights into how you can improve efficiency, Insights helps identify what to fix first so you can build digital confidence and release better software faster.

VISUALIZE TEST RESULTS

Test Overview and Trends dashboards provide metrics around key results such as pass/fail rates, concurrency usage, and browser coverage to give you a complete view of where testing is succeeding, and where there is room for improvement.

IMPROVE EFFICIENCY WITH FAILURE ANALYSIS

Using machine learning to work with pass/fail data and Selenium/Appium command logs, Failure Analysis gives you insight into where failures are most common, and how pervasive they are in your test suite to prioritize remediation.

UNCOVER QUALITY BLOCKERS

View test trends across all metrics such as teams, build or application, platform or browser and regression or smoke test. Quickly determine which individuals, teams, tests, platforms cause the most issues so you can focus resources to correct them. Easily compare quality across different teams in your organization.

INTERACTIVE VISUALIZATION

Customizable filters allow you to compare data across teams, builds, browsers and operating systems. Quickly identify gaps in test coverage, or areas that are creating quality risks so you know where to focus your resources.

DATA WHEN YOU NEED IT

Near real-time access to test information enables testers to quickly identify issues and address them fast. No more waiting to run reports at the end of the day; you get the data you need to address test issues in easy-to-understand visualizations.

POWERFUL REST API

It's your test data, use it how and where you want. All of the information available in Analytics can be easily exported and aggregated in your quality dashboards to create a unified view of all of your test data.

GETTING STARTED

Insights is available to Sauce Labs customers on Enterprise plans. To learn more about this, and other Enterprise features, please contact sales@sauce labs.com.
